

PHOTOSHOP® WORKSHOP

Sunday, June 7th

2:00 PM

A great educational workshop has been planned using Adobe® Photoshop®.

FREE

Grand Rapids Camera Club's own Kelly Walkotten will be leading this workshop. Topics she will be covering include, basic work flow, basic work flow for people pictures, resizing, changing backgrounds, and creating a vignette if we have time.

Kelly is also offering all the notes (in color) in a bound workbook for \$15.

We have access to a computer lab with Photoshop CS3 installed on 25 workstations (some PC and some Mac platforms).

Since there are a limited number of workstations, we have to limit the number of participants and you must be a Grand Rapids Camera Club member to participate.

If you would like to attend please email Mike Mitchell (votrepear@gmail.com) to reserve a spot.
